## REVIEW OF MARKETS

## FINANCIAL AND COMMBRCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

New York, Dec. 22.—The stock market had to undergo further liquidation to-day. Prices yielded without any very active resistance, but there were no signs of panic and the liquidation was conducted in an orderly manner. The principal causes of weakness were evidently not local and seemed to be largely due to the condition of affairs in Boston. The closing of the Globe National Bank there was the cause of widespread uneasiness and brought large offerings on the New York market of the favorite Boston stocks. Sugar was the most conspicuous example, as is shown by its extreme decline of 7 points. This stock was under very heavy pressure all day on rumors of a continuation of the trade war, as well as on the forced sciling for Boston account. Burlington, Federal Steel and Atchison, preferred, were also sold from Boston. London was a large seller of stocks in this market and the depression there exercised u large sentimental influence. The rise in the private discount rate and the fears of trouble at the settlement now imminent are caused of apprehension.

Some of the favorite international stocks were acutely depressed from time to time, notably New York Central, St. Paul, Baltimore and Ohlo, pre-

stocks were acutely depressed from time to time, notably New York Cen-iral, St. Paul, Baltimore and Ohlo, pre-ferred, Missouri Pacific, Reading, first preferred, and Denver and Rio Grande, preferred.

preferred, and Denver and Rio Grande, preferred.

The bears were energetic operators all day. During the last hour the bears were very large buyers to cover short contracts, and the effect on prices was seen in recoveries running all the way from one to five points in the principal rallroads and industrials. As a result net losses were reduced within a range of 3 points, except in a few inconsplctuous stocks, which had not moved previously during the week. A number of stocks, including those which have suffered most severely during the week rose slightly above last night's level. The rate for money flurried at one time to 8 per cent, but ruled for the most part at 6 per cent, or below. Estimates of to-morrow's bank statement are all at sea, owing to the extraordinany conditions that have prevailed. The banks have gained on the regular interior movement, but the extraordinary demand from Boston has offset that, so that the net loss on the interior movement is about \$1,300,000. On subtreasury operations they have gained about \$3,000,000. The amount of gold exports which will fleure in the statement, including last Saturday's shipments, is about \$3,000,000. No one ventures to estimate of what the loan changes may be.

Bonds were weak in sympathy with

counts of about \$1,000,000. No one ventures to estimate of what the loan changes may be.

Bonds were weak in sympathy with stocks, the speculative issues showing some sharp declines. Total sales, par value, \$2,500,000.

United States new 4's advanced ½, the old 4's and 5's ¼ in the bid price. The total sales of stocks to-day were 790,100 shares.

### The Cotton Markets.

NEW YORK COTTON MARKET. New York, December 22.-Not much New York, December 22.—Not much new business was attempted in cotton to-day. Scarcely any outside orders reached the exchange and the local interest had already been pretty well evened up in anticipation of the holidays in this country and in Europe. The market opened steady and an advance of 1 to 4 points. There was not a full response to Liverpool's food showing. Private cables were quite builtsh, indicating low stocks in the hands of English spinners against a good demand for cloths and yarns. Today's local market, however, had practically no speculative support and before noon had drifted back to the closing figures of yesterday. Later in the session the situation was very tame, but sentiment was rather builtsh, particularly on the strong Liverpool statistics and the small receipts of cotton in this country.

The Southern spot markets were all reported in very good shape. Few traders had the courage to take the short side with such factors in view, and while business was, very dull, the undertone of the market was quite firm with the close steady.

Prices were net 1 point lower to 3 points higher.
